Group Norms and Team Contract

Group Member Names: Maximus Matarese & Andrew Mendes

The objective of this activity is for your group to decide upon group norms and craft a team contract. Your entire group should come to a consensus about these items.

Submit the link to this document as part of your quiz for today. Also share the link with everyone in your group.

Note that part of your final project grade will be the effort you put into your project.

Decisions (How will they be made? Majority, consensus, other?)

Consensus decisions will be made.

Attendance (What are your expectations for the frequency and type of attendance for work outside of class/lab time?; What are legitimate reasons for missing? What do missing members have to do to make up for missed meetings)

Will catch each other up on missing work via text or facetime.

Is expected to work outside of class.

Assignments (How will assignments be made? How will the group deal with members who do not complete (or poorly complete assignments?)

Split project up into sections (splash screen, gameplay screen, algorithm, etc.)

The member that does not do their part assigned will not be given credit.

Participation (How will you communicate and share information; How will you ensure full participation of everyone? How will you honor member strengths and interests)?

We will communicate through snapchat. Plans will be made for when to work on the project. Consensus decisions will be made on what will work on and what the project will be on.

Meeting Times and Locations/Mediums (How will you decide on locations and times that suit all members)? Zoom and class maybe after class

Agenda and SCRUM Meeting Notes (Who will take them and in what format will they be shared?)

We will communicate a schedule through snapchat and meeting notes will be taken on a google doc.

Promptness (What do you expect and how will you handle lateness?)

Be on time.

Conversational Courtesies (How will the team encourage and reinforce active listening, sharing of the airtime, tangents, respectful dialogue, etc)

Enforcement/ Feedback (How will the team enforce its own rules? How do individuals prefer to give and receive feedback?)

Constructive feedback is expected. No enforcement of rules.

You may add additional norms here.
